

## 3.25 Acres on East Wilson Bridge Road Statement of Community Outreach and Engagement Plan

The development team has developed and will work to develop, customize, and continuously redefine the proposed project in conjunction with many local community and civic development groups including, but not limited to, City Staff, the Municipal Planning Commission, and City Council. The development team understands City departments such as Service & Engineering, Economic Development, Parks & Recreation, Division of Fire & EMS, Division of Police and City Administration would all review any rezoning application and would meet with all these entities for their feedback in order to strengthen the proposal.

Outreach for the project will not stop. Each development becomes better the more constructive input and information is collected, considered and assembled into the final proposed project. The timeline below reflects the estimated future community outreach should the applicant be chosen under this RFP:

### 4<sup>th</sup> Quarter 2022:

- Pre-application conference with City Staff regarding proposal
- Public Meetings Held with Community
- Public Meetings Held with Elected Officials
- City Staff Review

### 1<sup>st</sup> Quarter 2023:

- Municipal Planning Commission
- Public Hearing
- City Council Meeting
